Samantha Stacy

Samantha Stacy Promoted to Technical Director for SIMONA AMERICA Group

April 1, 2022

As technical director, Ms. Stacy will lead product development, capability analysis, quality, and field services for all SIMONA AMERICA Group manufacturing companies.

In this role, Ms. Stacy will oversee each technical department, facilitate communication between divisions, and develop synergies to improve processes and research strategies. Additionally, she will lead the technical center in working with sales departments to develop market focused products and processes.

“One of our key objectives for 2022 is to harmonize our product development and technical service approaches between our three businesses. We are excited to have Sam lead our very tenured and talented technical team,” said CEO Adam Mellen.

“I am excited to be taking this next step within the SIMONA Group. We have a great team and I look forward to working with them to grow and improve our technical and product development capabilities.”

Ms. Stacy joined SIMONA PMC in 2015 after previously working as a project manager at Scotts Miracle Gro. She is an MBA graduate of Ohio State University, where she also has a Bachelor of Science in Chemical and Biomolecular Engineering. She will continue to be based out of Findlay, Ohio.
